MARRIAGE RECORDS OF ST. CHARLES COUNTY, MISSOURI

BOOKS I AND II - 1805 - 1844

St. Charles, one of Missouri's five original counties, is one of the most important historically and genealogically. It was the site of the state's first capital, and in the territorial days it covered a vast area to the west and to the north. Nine present counties at one time lay within its boundaries -- Lincoln, Marion, Monroe, Montgomery, Pike, Ralls, Warren, Callaway and Audrain.

St. Charles was also a cross-section of Missouri's earliest population groups -- the French from Canada, from lower Louisiana, and from the Illinois country; the "Americans" who had begun moving into the area in the 1790s, before the Louisiana Purchase; the earliest German immigrants in the midwest.

Two previous compilations of St. Charles marriages have been made. One is based on Oscar Collet's index to the Catholic marriages of St. Charles Borromeo (St. Charles); St. Francis (Portage des Sioux); and St. Peter's. The other is the third book of civil records (1844-1853) done by the late Mrs. Edna McElhiney Olson, a genealogist-historian whose work is a priceless heritage to present-day researchers. Both have recently been re-published by the St. Charles County Historical Society.

The present book is intended to fill the gap left by these two. Some, but not all, of the Catholic marriages were also recorded in civil records; missionaries weren't always careful about records.

The spelling of names is given exactly as recorded: "Gaty," "Gairty," and "Gatty" are obviously the same family, but that's how three different clerks decided to spell the name. The old handwriting is difficult to decipher, and some records are in French. In particular, the researcher should note the similarities between S, T, L, and even F, and check all these initial letters when looking for someone in those categories. "H" and "K" are also easily confused.

Some clerks wrote better than others; some officials spelled better than others. A French priest reporting a German name was in some trouble, and vice versa.

But in the end, these are the only records we have of those long-ago marriages in the country surrounding the "City of the Little Hills."
